At least one error upon which reissue is based is described as follows:

In Figure 5, Δ1 and Δ2 are shown reversed. Failure to obtain the claimed scope recited in Claim 29 was error, and in particular, failure to claim an ultrasound diagnostic apparatus in which first and second drive signals result in generation of respective echo signals representative of first and second image qualities, as stated in Claim 29.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.
